

Ihfaz Alam

Junior Programmer | Bangladesh

Email : experbdtwriter@gmail.com | Phone : (+880) 01770080128

GitHub Profile : <https://github.com/IhfazAlam>

Objective:

I'm an enthusiastic and dedicated junior programmer excited about diving into innovative projects while sharpening my skills in HTML and CSS and other technologies. I have a genuine passion for coding and thrive in collaborative team settings, where I can contribute my best efforts.

Education:

Jatrabari Ideal School And College, Bangladesh

Roll : 4

Class : 4

Skills:

Proficient in Python programming language, with hands-on experience in developing applications and scripts.

Familiarity with software development methodologies such as Agile and Scrum.

Strong problem-solving skills and ability to troubleshoot technical issues efficiently.

Knowledge of version control systems like Git for collaborative development.

Excellent communication and teamwork abilities, demonstrated through group projects and collaborations.

Personal Portfolio Website

I crafted a dynamic portfolio website from scratch using HTML, CSS, and JavaScript. It's not just a showcase of my projects, skills, and experiences; it's a reflection of my journey as a programmer. I made sure to include contact forms to encourage user interaction and welcome feedback."

Experience: Junior Programmer | 3 years experience.

I had the opportunity to work alongside experienced senior developers, lending a hand in both building and testing various software applications. Each day, I eagerly joined our team's stand-up meetings, where we openly discussed our progress and brainstormed ideas together. Additionally, I took on the important task of documenting our code and technical specs, ensuring that our knowledge could be shared and built upon in the future.
